Rohan Jaswara

Web Development Intern

rohanjaswara88@gmail.com 6294971862 linkedin.com/in/rohan-jaswara-29849943a
github.com/rohanjaswara88-art

SUMMARY

First-year BCA (AI & ML) student who builds interactive, animated websites. Built a 3D-enabled e-commerce storefront in vanilla JavaScript and a Python voice assistant. Looking for a web development internship anywhere in India (remote, hybrid or on-site) to learn on real projects and contribute from day one.

EDUCATION

Bachelor of Computer Applications (AI & ML), Brainware University — Expected 2030

SKILLS

Web: HTML, CSS, JavaScript, Three.js, Vite, npm

Programming: Python

Tools: Git, GitHub

Strengths: Interactive UI, animation, responsive layouts

PROJECTS

LUXE TECH: E-commerce Storefront — github.com/rohanjaswara88-art/fine-Website
HTML, JavaScript, Vite, Three.js

- Built a responsive storefront with a product detail viewer, drag-to-rotate image views, zoom and a finish selector.
- Implemented a shopping cart with add, quantity, remove and subtotal.
- Added a 3D product carton loaded with Three.js, with drag rotation and zoom.

Nelle: AI Voice Assistant — github.com/rohanjaswara88-art/nelle-AI
Python, speech recognition

- Built a voice assistant that listens to spoken commands and replies by speech.
- Supports opening websites, telling the time and searching the web by voice.
- Added custom spoken replies, such as answering "who is Rohan".

Personal Portfolio Website
HTML, CSS, JavaScript, Three.js, GSAP

- Designed a sky-themed portfolio with a live 3D cloud background, zoom-through scrolling and a scroll-driven graph section.
- Built with AI assistance; I directed the design, content and iterations.
